Hi Randi,

1. Quote for website - It has been a pleasure working with Randi on our research exploring the experiences of rural engineering students. She has provided thoughtful guidance and a depth of expertise that has been instrumental in shaping the project. Randi is genuinely invested in supporting high-quality research, and I look forward to continuing to work together as we move into focus groups and qualitative data analysis.

Subject: Website Testimonial

Hi Jennifer,

Would you mind writing a testimonial about my QED's work for the new QED website?

Specifically, I'm asking for:

- A short (1-2 sentence) testimonial about my/QED's work on your project
- Permission to link your project's public abstract through NSF to the website
- Permission to write a short summary of your project and statement that QED/I consulted on your project

Please feel free to decline for any reason. Not everyone is comfortable sharing their thoughts or their project's information on the internet, there is no pressure to agree 😊.

Thank you!

Randi
